CATALOG AND ANNOUNCEMENTS

ALCORN COUNTY AGRICULTURAL
HIGH SCHOOL

Kossuth, Mississippi

1913-14

TO THE PUBLIC AND PATRONS.

We call particular attention to the matter contained in this catalogue. The success of the schools will depend largely upon the good will, harmony and support that exist between patrons and teachers, and it is confidently believed that this condition will only broaden and deepen as both parents and teachers learn more clearly how much each needs the intelligent aid and sympathy of the other in shaping the destiny of the child. For a parent to criticise the teacher in the presence of a child is to do the child an irreparable injury. You cannot afford to do this, if you are working for the best interest of your child. If you have grievance or complaints to make, the proper thing to do would be to go to see the teacher about them. Many a disturbance could be amicably settled if the patron would only take the time to investigate and see the teacher.

The teachers employed in this school are God-fearing, honest, conscientious men and women, and will spare no effort to advance your children as rapidly as possible, both mentally and morally. But their success must be based on your confidence, your sympathy and your co-operation. They do not ask this for their own sakes, but for that of the children.

Parents and friends are invited to visit the schools as frequently as possible. Let all join hands in building up the best school at Kossuth to be found in the State.

Yours truly,
HAL ANDERSON, Principal.

ALCORN COUNTY AGRICULTURAL HIGH SCHOOL

HISTORY.

The public-minded citizens of Alcorn County, realizing the necessity of practical work in schools and more especially the importance of proper training along agricultural and industrial lines, availed themselves of the opportunities offered by the laws of the State and established the Alcorn County Agricultural High School.

The first session of the school opened in October, 1909. A few days after the opening of the school the old law was declared unconstitutional. However, we continued to work, running a free school open to all grades. After the Legislature corrected the mistakes made, work was resumed on our new building, this being completed in time for the school to move into new quarters before the close of the first session. The second session was a great success in every way.

On February 19th, 1912, the school building was consumed by fire. The good people of Kossuth threw open their homes to the boarding pupils until the Board of Trustees leased the hotel for a dormitory. On the 22d of the same month school was resumed in the old Kossuth free school building, with the hotel as dormitory. The remainder of the session the school was good and the attendance held up better than was expected.

In May the Board of Supervisors issued \$5,000.00 in bonds and the Board of Trustees, under an act of the last Legislature, borrowed \$5,000.00 and it is hoped that by September two new buildings, by far surpassing the old one, will have been constructed.

Because of delay on the part of the contractors, we did not move to our new buildings until the middle of December, 1912. The school opened after Christmas with renewed vim and determination, and things moved on well until the close, May 27th, the attendance holding out better than in the past, and our splendid graduating class setting a precedent high in grade attainments and moral behavior. The climax came in the speech of Hon. J. W. Powers and all ended well.

LOCATION.

Kossuth is very near the geographical center of Aleorn County, nine miles from Corinth, the intersecting point of the Illinois Central, Southern and M. & O. Railroads.

Kossuth is a healthful little town and has a citizenship that is enthusiastic over the prospects of our school. They are careful to see that the town is free from those contaminating and demoralizing influences so often found in our towns.

The school grounds are located on the highest point in Kossuth. We are supplied with an abundance of pure well water, pumped from a well 200 feet deep, this well having been bored through about 100 feet of impervious strata assures us of good pure water for all time to come.

The general lay of the land slopes in all directions from the building, thus giving us absolute drainage. In fact, had the School Commissioners searched the whole country over it would have been hard to have found a more suitable location.

DISCIPLINE.

We believe in training a child in the way we would like to see him go, and that we cannot start too soon. It is ruinous to a child in the undeveloped state to leave him without a guiding and restraining hand in his daily conduct. In order that the teachers may be responsible to parents for the discharge of duty, they must have absolute control of the pupils from the time they enter the school until they stop. Parents are requested to aid the teachers in the discipline of their children, and if they are not willing for their children to be controlled, they are kindly requested to send them to another school. Our discipline shall be firm, but not harsh. All rules must be obeyed. In order to learn to govern and control, one must first learn to be governed and controlled; to command respect, one must also respect others. The generals who have made the best officers were once boys who willingly submitted to being

disciplined. Hence, the true object of discipline is not merely to secure obedience and courteous deportment, but to develop in the child power to govern himself. By putting upon the child every responsibility he can bear, self-reliance, self-respect, and self-control will be encouraged and developed. The grown pupils will be treated as ladies and gentlemen until they have proved themselves otherwise. Children will be corrected when necessary. The relation between pupil and teacher, as far as possible, will be one of mutual confidence and respect.

GENERAL ANNOUNCEMENTS AND PLANS.

BOARDING DEPARTMENT.

The Agricultural High School Building will be able to care for seventy-five to eighty-five boarders. All boarders entering this department will be expected to comply with all requirements of the department.

All pupils in the boarding department will be expected to do at least one hour's work each day. The girls will be expected to attend to the cooking, the dining room work, cleaning up their own rooms, etc. This work will be so arranged that each girl will have only the required amount to do each day. It is not our intention to force any work on any girl that she is not capable of standing, but merely to make the total expense as small as possible.

The boys will be required to do the work about the place that is ordinarily expected of boys at home on the farm. They will be required to get the water, wood, etc., to look after the stock, lot, garden, field, help in building up the place in general. They will also be required to keep their own rooms clean and in perfect order.

In addition to the regular work each day in the school week, the boys will be given an opportunity to work every Saturday morning on the place, for which they will receive compensation, this compensation to go first to paying for their laundry, which will be done by hired help, and in

case there is any balance it will be applied to the board.

In case there are boys and girls who wish to work their way through, there will be provisions made for same. Any wishing to avail themselves of this opportunity should see the Principal at once.

We propose to put a first-class education within the reach of all. It will be your own fault in case you fail.

PROF. HAL ANDERSON,
PRINCIPAL

REQUIREMENTS OF BOARDING PUPILS.

All pupils in the boarding department will be required to be in their rooms each night at 7:00 and study till 9:00, and will be required to retire at 10:00. During this time one of the teachers will visit the department and require

each pupil to spend two hours in actual preparation of the work for the next day. This applies to five nights in the week.

No pupils will be allowed to visit in town except at the discretion of the Principal in charge.

No boarders will be allowed to leave the building at night except at the discretion of the Principal in charge.

Boarders will not be allowed to receive visitors in their rooms.

No girls will be allowed to receive boys as company during the session.

The boys will not be allowed to loaf around the stores or town. We have a school ground of twenty-six acres, sufficient to allow any boy all the exercise necessary to develop him physically. We feel sure that he will gain nothing mentally or morally by such loafing.

All boarders will be required to furnish the following articles: 6 towels, 2 sheets, 2 pillow cases, 2 quilts or blankets, 4 table napkins, comb and brush, toilet soap, 1 pillow, 1 chair, 1 bucket, 1 mirror, 1 drinking cup. Any pupil failing to bring the above will be required to get same at once or the articles will be bought and charged to their accounts.

All boarders will be required to attend Sunday School and preaching each Sunday. We have Sunday School at three churches: Baptist, Methodist and Presbyterian.

GENERAL EXPENSES.

COST OF BOARD.

Board will be furnished at actual cost. A deposit of \$10.00 will be required of each pupil entering the boarding department to pay for the first month. At the end of each month a bill will be given each pupil, showing the actual cost for that month. Within five days the pupil will be required to deposit with the manager of the boarding department the amount called for on the board bill. This

will allow the manager to keep all board paid in advance and no pupil will have to suffer for bad collections. Any pupil failing to make the required deposit within the required time will be dismissed from the school till such deposit is made. Any balance due such pupil will be repaid at the end of last month when the cost for board shall have been prorated.

PROF. E. STRICKLAND.
PRINCIPAL LITERARY DEPARTMENT

TUITION.

Tuition in all High School grades for students from Alcorn County will be free. A tuition of \$2.00 per month will be charged all pupils outside of Alcorn County.

INCIDENTAL.

All pupils will be required to pay an incidental fee of \$1.00. This fee is due the first day of school, and no pupil will be entered upon the register of the school till this fee is paid. We ask all patrons to attend to this, so as to avoid unnecessary trouble. Any balance on hand at the end of the session will be used to improve the interior of the recitation room.

REQUIREMENTS FOR ALL PUPILS.

No student will be admitted to this school without satisfactory evidence of a good moral character.

Pupils will be required to observe all rules and regulations of the school.

No cigarette smoking will be allowed upon the school premises. We have little hopes for the boy who has his brain filled with nicotine. In case your boy smokes cigarettes and has your consent to do this, it would be beter to keep him at home.

No profane language will be allowed by or between pupils.

Any pupil having contagious disease will be required to remain away from school, at the discretion of the faculty.

No pupil will be allowed to deface or mutilate the buildings or grounds. Any pupil doing this will be required to compensate for same or else replace the damaged part.

Any pupil bringing books, papers or other reading matter to the school other than text-books, will do same at his own risk. The teachers will be expected to take up such reading matter and destroy same at their discretion.

Separate playgrounds have been provided for the boys and girls, and under no conditions will either be allowed to infringe upon the grounds of the other.

Association between the boys and girls is strictly prohibited, except as they may be thrown together during recitations.

Continual or malicious violation of any of the rules,

indolence, profanity, obstinacy, or any ungentlemanly or unlady-like conduct, shall subject the offender to suspension or expulsion.

SPECIAL REQUIREMENTS OF RESIDENT PUPILS AND PUPILS
BOARDING IN PRIVATE HOMES.

All pupils shall be required to come direct from home to school and return direct home from school. Each pupil

MISS MAE BELLE WILLIAMS
MUSIC DEPARTMENT

is under the control of the faculty from the time he leaves home till he returns home. To this end we appeal to the patrons to assist us in carrying out this provision.

Pupils will be held strictly accountable to the faculty for any misconduct while going to or from school.

All pupils shall be expected to be present at the chapel exercises each morning.

We make this an earnest appeal to the parents to stop all Friday night frolics and let the children spend the session in careful study. You cannot expect us to accomplish anything if you allow your boys and girls to go out to frolics, parties, etc., during the session. In case you expect your girl to succeed, then stop her from receiving company during the session.

Again, we ask for the co-operation and help of the patrons in making this school a success.

LIBRARY.

During the past session we have added more than 100 volumes of standard literature, an Encyclopedia, a Dictionary and two nice book cases to our Library. We hope, with the aid of concerts, suppers and the regular fee of 50 cents required of each pupil, to do even more the coming session.

We realize the absolute necessity of an abundance of reference books, and our aim is to give our pupils the very best of everything.

REPORTS.

At the end of each month the teachers shall make out regular reports, showing the attendance, deportment, and general progress of each pupil in each recitation. These reports shall be signed by the parent or guardian and returned to the teacher. Each teacher shall be expected to make a copy of the report on the general report register prepared for this purpose. This register shall become a part of the history of the school.

ATTENDANCE.

Realizing the importance of punctual attendance, we request the patrons of the school to assist us in this. It is impossible for your children to do the work we expect of them if you allow them to remain at home two or three

days each week. It not only throws the pupil behind, but puts him as a stumbling block in the path of progress of others. We therefore urge that you make any sacrifice within reason to keep the pupils in regularly.

MISS FANNIE CALLENDAR,
DOMESTIC SCIENCE DEPARTMENT

ATHLETICS.

We believe that well-directed physical exercise preserves the health of the student, stimulates his mental activity and elevates the moral tone of the student body. Mischief is only misdirected energy, and the teacher is often the cause of a student's misconduct. The school that develops the mental side of the pupils to the neglect of the physical,

is failing in its mission to mankind. Therefore, our school has made ample provisions in this respect for both sexes.

The harm lies not in the athletics, but in the abuse of it and in the athletes. We will encourage the boys to play baseball and basket ball, the girls to play tennis and basket

GIRLS BASKET BALL TEAM

ball, yet the Boards have placed the following restrictions on the athletes: All teams must be under the supervision of the Superintendent. No games will be played with other teams without the Superintendent or some other teacher present. Match games will be limited to school teams. No pupils will be permitted to play in a match game who does not make a general average of 80 per cent. on his or her daily recitations and a monthly average of 85 per cent. on deportment.

BOYS BASKET BALL TEAM

THE PURPOSES OF THE AGRICULTURAL HIGH SCHOOL.

First—It supplies a missing link between the old system and life.

Second—It qualifies its students to fulfill their mission in life.

Third—It helps to keep the boys and girls in the country by dignifying country life and employments.

Fourth—It tends to break down castes or lines of distinction in society.

Fifth—It will tend to create a sympathy between the poor and the wealthy.

Sixth—It will serve to keep a dissatisfied class of boys and girls in school by giving them something that they have an interest in.

Seventh—It will serve to promote the health of pupils, not only by exercise it will afford, but by habits formed.

AGRICULTURAL DEPARTMENT.

HAL ANDERSON, PRINCIPAL.

This course includes the following subjects: Agriculture, Physics, Botany, Chemistry and Mathematics.

The first year in agriculture will be bulletins pertaining to the formation and character of soils; how to build them up and how to prevent their destruction.

The second year will be a text on plant life.

The third year will include, besides a book on care and feeding of farm animals, a course in bulletins pertaining to the various breeds of animals.

The fourth year will be a thorough course in farm management.

Four hours per week in the field will be required each year; the work in the year will be outlined from the classroom work. This work will be given to train and to teach the pupils the practical side of farm life.

Physics will be in the second and third year. In these two courses we will study the laws of physics and will also perform the experiments to illustrate the laws.

Botany comes in the second year. Bailey's text will be used and 25 species must be studied in the laboratory.

Chemistry will be in the fourth year. We will have a nice laboratory in which all of the experiments will be performed. Chemistry will be studied in relation to the soil and to plant life as far as possible. The laws which underlie composition and decomposition will be studied.

MATHEMATICS.

First Year—Arithmetic and Algebra to factors.

Second Year—Algebra to quadratics.

Third Year—Complete Algebra and first book Geometry.

Fourth Year—Complete Plane Geometry

LITERARY DEPARTMENT.

Departments of English, Latin and History Will Be Under
E. Strickland.

ENGLISH.

It will be the purpose of the instructor in the first year of English to give a thorough course in the principles that underlie technical Grammar, giving special attention to the analysis of sentences.

The second year's work will be mainly composition work in connection with the study of short stories as to their construction, form, style and devices used in description.

The third year's work will be a more extensive study of literature in connection with the history of English and American literature.

The fourth year will be a continuation of the work of the previous year with the addition of themes.

LATIN.

Latin will be optional, and will begin in the second year.

The first year of Latin will be a study of Latin forms, short sentences to read, alternated with Latin prose composition. Bennett's First Latin Book will be used as a text.

The second year Latin course will be a completion of Bennett's First Latin Book. Read the first book of Caesar, giving special attention to all construction, with frequent references to grammar.

The third year course will be to read three books of Caesar and four of Cicero's Orations. The study of form and construction will be emphasized and weekly prose composition exercises will be given.

HISTORY.

The first year's History will be a course in Mississippi History in connection with library reading and reports of Historical Society.

The second year will be a course in English History. Special note will be taken of the development of English Institutions and their bearing on American History.

The third year will be a course of Ancient History. Man will be traced from his savage state through varying stages of development. Special attention will be given to such events as may be classed as world history.

The fourth year will consist of a four months course in Mediaeval and Modern History, and a five months term of American History.

DOMESTIC SCIENCE DEPARTMENT.

MISS FANNIE CALLENDAR, INSTRUCTOR.

The first year's work will be a course in hand and machine sewing. Each girl will be expected to furnish her own material. No text-books will be used, but directions will be given and girls are required to keep a note book.

In the second year the sewing will be a more advanced course than the first. In cooking, a text-book, Theory and Practice of Cooking, will be used.

The third and fourth years will include sewing and a course in household decoration, sanitation, etc., a subject that has been very much neglected. Text-books and bulletins will be used for this.

PAY SCHOOL.

All pupils below the Eighth Grade will be charged a tuition fee, as follows: First, Second and Third Grades, \$1.50 per month; Fourth and Fifth Grades, \$2.00 per month; Sixth and Seventh Grades, \$2.50 per month, until the free schools open, and the same rate will be in effect after free school closes.
